

START MAT™

HDPE GROUND PROTECTION MAT

StartMats™ are 100% made in the USA and are created with superior HDPE (High-Density Polyethylene).

“The most affordable high quality and innovative mat on the market.”

Our mats are easy to install by offering more flexibility over uneven ground than any other mat while offering the same rugged performance.

Available in multiple sizes, colors and textured finishes that are suited for construction or landscaping use where high traction is needed while also protecting vegetation and your environment.

StartMat will not rot, crack or peel providing your business with the best return on your investment!
