HIGH VISIBILITY USER INFORMATION

US

Please read these instructions carefully before using this safety clothing. You should also consult your safety officer or immediate superior with regard to suitable garments for your specific work situation. Store these instructions carefully so that you can consult them at any time.

Refer to the garment label for detailed information on the corresponding standards.

ANSI 107-2010

ANSI/ISEA 107-2010 American National Standard for High Visibility Clothing signalling the users presence during day and night (see label)

- X** Class for the fluorescent and reflective surface - 3 levels
- Y** Class for the performance or reflective tape - 2 levels

X

- Class 1:** Minimum level
- Class 2:** Intermediate level
- Class 3:** Highest level

Y

- Class 1:** Minimum level
- Class 2:** Highest level

Limitations Of Use (ANSI/ISEA - 107-2010) :

Always wear the garment fastened.
 Keep clean : Should the High Visibility properties of this garment become irrecoverably soiled or contaminated, replace with a new one. This garment is suitable for wear during an entire working day and contains no toxic substances that can affect health adversely in any other way. No allergic reactions due to skin contact with this garment are known. Do not attempt to repair damaged garments. All garments should be discarded safely. The clothing should not be altered or filtered with extra labels or logos. The clothing should only be worn in situations for which it is intended.

Content Label : Refer to garment label for corresponding content details.

Available Size & Selection : Fit according to correct chest and waist size, refer to size chart. These garments have a built in allowance for comfort and to allow the garment to be worn over medium bulky clothing.

Warning: Where there is a hood, peripheral vision and hearing may be impaired.

Storage : DO NOT store in places subject to direct or strong sunlight. Store in clean, dry conditions.

After care : The manufacturer will not accept liability for garments where care labels have been ignored, defaced or removed

Wash Care Labels : Please refer to User Sheet Sticker

Retroreflective tape or labels should not be ironed!

Please refer to the garment label for the number and wash cycles claimed.
 The stated maximum number of cleaning cycles is not the only factor related to the lifetime of the garment. The lifetime will also depend on usage , care storage, etc. Garments should be discarded when the protective qualities no longer apply eg,
 1. Maximum number of washes is reached.
 2. The material has been damaged either by fading or has been torn.
 3. The reflective qualities of the tape have faded.
